Purpose

• Generate a presentation and website that can be used to advertise your project.
  – The presentation and website should be capable of helping you find funding.
  – Exercise in communication efficiency and your ability to communicate with a *non-technical audience*. 
Website

• You need something that provides an interested party more information that is current.

• You need to provide the purpose, importance, and impact in a concise introduction (i.e., the 5W+H: Who, What, When, Where, Why, and How). Introduce your team.

• Include your **Mission Statement** and your top level **Objectives**.

• Provide an easy to understand accounting of your current status with respect to performance, time, and money.
  
  – As your project progresses keep this up-to-date so investors or potential investors can follow your progress.
  
  – You can also provide access to more-in-depth analysis and calculations that are interesting and a compelling part of your story, but are difficult to communicate in a brief presentation.

• Finally, provide contact information for interested parties.
Sales Pitch Presentation

• Inform an educated, but not technical audience (e.g., potential investors or sponsors) about your project/product to persuade them to support you
  – Support can be funds, resources, materials, PR, technical or business advice, etc.

• Make them believe you can succeed

• Get them excited in your project and its potential
Sales Pitch Presentation Format

- 5 minutes for presentation (strict limit – cutoff at 5 min.)
- No questions during presentation – 2 minutes Q&A afterwards
- 1 or 2 presenters only (pick your best)
- Similar to “elevator pitch”
  - Elevator pitch is about 2 minutes and uses no slides
  - Depending on opportunity, your actual sales pitch may be longer (see Interstel Technologies pitch) – tailor it to the time you have been allotted.

- Maximum of 5 slides (with rubrics):
  1. Title Slide (5 points)
  2. Introduction Slide (10 points)
  3. Problem/Opportunity Slide (10 points)
  4. Solution Slide (10 points)
  5. Funding Slide (10 points)
1. Title Slide

- Include team/company name
- Project title with one-line subtitle (catch the essence)
- Name(s) of presenter(s)
- Date
- Catchy image (essential!)
2. *Introduction Slide*

- Introduces team & qualifications
- In one to two sentences, tells us what is the technology/product (abridged Mission Statement) and the Value Proposition.

Example:

*{team name} helps {audience} get {key benefits} through {secret sauce} featuring {key features}*

Note: alternate words can be used instead of the ones shown in italics as long as the essence of the value proposition is captured.
3. *Problem/Opportunity Slide*

- Indicates the current problem that needs to be solved
  - Use “voices of the customer” if appropriate
- Describes any opportunity in your field/market that might provide an opening for your technology
4. Solution Slide

- Describes the product in terms of benefits
- States how the technology solves the problem in the field
- Indicates why the product is better than the competitors
- Shows why the solution is attractive to the field and why it would be readily adopted
5. *Funding Slide*

- States the financial situation and schedule
- States what is desired from the customer to aid this project
- States the benefits to the customer
- Gives contact information and “Mahalo!”

Final Tips

- Use lots of images and graphics – words are boring (text should be interesting)
- You can use animation (image overlays) to present more information per slide, but don’t overdo it and don’t make it look crowded – and don’t use large overlays as way to increase slide count
- It is VERY important to grab and keep the audience’s interest – humor can be very effective if used properly
- Avoid monotone speech or showing hesitation – avoid the speed fillers “ahh…” etc.
- SHOW ENTHUSIASM ABOUT YOUR PRODUCT, WHICH IS THE BEST THING EVER
